WORK EXPERIENCE

Freelance Web Designer — January 2023 - August 2023

- Collaborated with clients to gather requirements and recommend solutions to improve website usability and user experience.
- Transformed Figma designs into responsive, production-ready websites using Webflow.
- Optimized websites for desktop, tablet, and mobile devices to ensure a consistent user experience.

Detech Coffee Company — Ha Noi, Vietnam
Content Creator — June 2021-March 2022

- Created engaging digital content including articles, short videos, and appealing images to build brand awareness and increase followers across Facebook and TikTok.
- Implemented influencer marketing by coordinating with influencers to promote company products, resulting in 100 new customers in one month.
- Livestreamed product promotions on e-commerce platforms such as Alibaba and Shopee, increasing orders by 30% compared to the previous month.

PROJECTS

CodeU – Interactive Programming Learning Platform — Drexel University, Philadelphia
Product Owner & Full Stack-End Developer | Team Project — Oct 2025 - March 2026

- Collaborated with a team of developers to build a full-stack programming education platform using React, Node.js, Express, and MongoDB.
- Developed RESTful APIs and implemented features including user authentication, learning progress tracking, and course reviews.
- Participated in Agile development, sprint planning, and team collaboration to deliver project features.

Pine Ledger – Business Management Application — May 2026 - Oct 2026
Full-Stack Developer | Personal Project

- Developed a full-stack property management dashboard using React, JavaScript, and Supabase, managing reservations, guests, payments, and check-ins/check-outs.
- Built interactive analytics with Recharts to visualize sales, occupancy rates, booking trends, and daily operations.
- Integrated Supabase PostgreSQL, Auth, and Storage for CRUD operations; used TanStack Query for caching and React Hook Form for validation.
